

# JOB AID: HOW TO ENTER JUICE ON THE FOOD INSTRUMENT INFORMATION SCREEN

---

**Purpose** The Prescribe Food Package or Change/Browse Prescription screens are used to:

- Prescribe the appropriate food package to the participant.
- 

**How to enter information** Follow the steps below to enter the necessary information at the Food Instrument screen.

Step	Action
	<p><b>At the Prescribe Food Package or Change/Browse Prescription Screens</b></p> <ul style="list-style-type: none"> <li>• User must answer the first juice question (enter F-Frozen or B-Bottled) before choosing a flavor of juice.</li> <li>• If an answer is not entered to the first juice question an error message will appear <b>“You must enter frozen or bottled before choosing a flavor of juice.”</b></li> <li>• At the <b>“What flavor(s) of juice do you want?”</b> Question field Press F-4 Option. Depending on the answer to the first juice question, a pop-up screen for frozen or bottled juice list will pop-up. Place cursor on the desired juice flavor choice, then press enter. The participant may choose 1 or 2 flavors of juice. <b>The user must enter at least 1 juice flavor.</b> The user may also enter the appropriate ISIS code of the participant’s juice choice(s) without using the F-4 Option.</li> </ul>
	<ul style="list-style-type: none"> <li>• Infants receive only 1 container if they choose bottled juice. If the participant chooses bottled juice and the user enters 2 juice choices, an error message will display <b>“ You may only choose 1 juice flavor for bottled juice with this prescription.”</b> If participant chooses frozen juice, they can have two flavor choices.</li> </ul>

# JOB AID: HOW TO ENTER JUICE ON THE FOOD INSTRUMENT INFORMATION SCREEN

continued

	<p><b>Note:</b> If participant chooses only 1 flavor of juice, they will receive all juice choices on 1 check. If the participant chooses 2 flavors of juice and receives an odd number of containers of juice, they will receive more of the most popular flavor of juice, based on statewide retail purchasing data (e.g., if they choose apple and pineapple and receive 3 cans, they will receive 2 cans of apple and 1 can of pineapple). If the participant chooses 2 flavors of juice and receives an even number of containers of juice, they will receive 2 checks for an equal number of containers of the 2 juice choices.</p>
